PROJECTS

Sales Insights – Brick & motor business [Power BI | SQL]

➢ Designed a Power BI dashboard to understand Hanu hardware goods sales trend.
➢ The final dashboard was effective at displaying the sales trend of Hanu hardware, allowing users to understand the data and make informed decisions.
➢ This dashboard could help in increasing the revenue at least by 7% in the next quarter.

HR Data analytics – HR Domain [Power BI | Excel]

➢ Designed a Power BI dashboard to track employee data for the HR team, including working hours, attendance, performance, and leaves. The dashboard streamlined HR processes and increased efficiency.
➢ This Dashboard can save 3-4hrs of work for the HR daily.
➢ This dashboard could help in increasing the revenue at least by 7% in the next quarter.

Revenue Insights in hospitality Domain – Hospitality Analysis [Power BI | Excel]

➢ Hanu Grands noticed a loss in their market share and revenue over a few months. To understand the cause of this loss, they needed a way to analyze this. I created a dashboard in Power BI using three months of data.
➢ With the created dashboard, Revenue team of Hanu Grands were able to gain insights about their revenue trend. This could help in regaining their revenue and market share by 20% in the next month.
